Data sheet: WL-203

SITECOM

Product code   : WL-203
Product name   : Wireless All-in-One Printerserver
                              USB 54g)1 port)
EAN code   : 8716502019168

This wireless Printer Server allows you to connect an All-in-One printer, a USB printer or a USB scanner to a wireless home network. It will then be possible to wirelessly share the devices with all the computers on the network and to wirelessly print, scan or send faxes from any desktop PC or notebook at home or in the office. The Printer Server no longer has to be located close to a desktop PC or notebook and, therefore, offers optimal flexibility and user-friendliness.

Since the Printer Server is also suitable for connecting to an external hard disk, all the users can also make use of flexible storage capacity.
